

L6 Functions

For Discord email - support@learnyard.com

What are Functions ?

Use-case of Functions

Different Aspect of Functions

Passing Arguments in Function

Sum of number using Functions

Even odd number using Functions

Understand how to submit questions on Leetcode

We have to complete functions on leetcode

area

accessible ←

Scope of Variables in Function

int

public static int sum (int a int b)

```
→ {  
    int answer = a + b;  
    return answer;  
→ }
```

Scope

if (condition)

```
{  
    int a = 5;  
    int b = 10;  
}
```

Variable Pass by Value and Pass by Reference in Function

```
public static void increment (int a) {  
    a = a + 1;  
}
```

main function
int a = 7;
increment(a);
S.O. flu(a) → 7

copy →

Pass by
value

7

a

Call stack working in Function

main

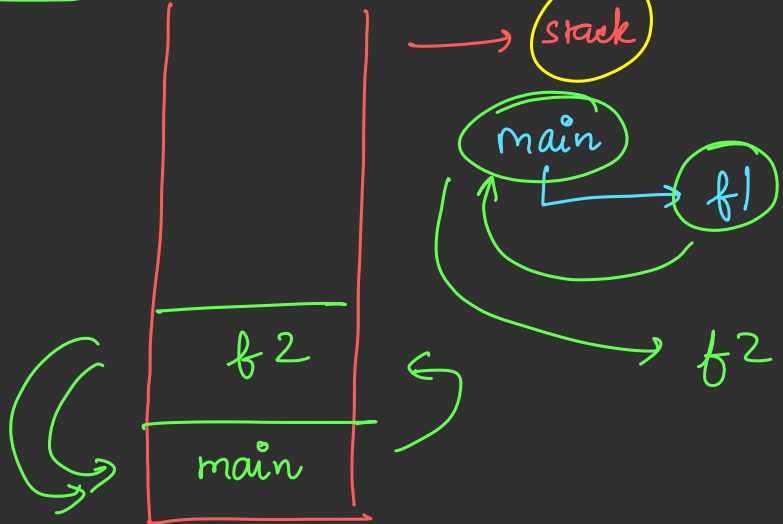

{

f1();

→ f2();

→ f3();

}

Can we write function inside another function ?

Extra question [Armstrong using Function]
