PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience in building scalable web and mobile applications using Vue.js, Python, Django, Node.js, and React.js. Passionate about creating efficient and reusable code and committed to delivering high-quality software solutions. Adept at integrating front-end and back-end functionalities and managing cross-functional team collaboration.

PROFESSIONAL EXPERIENCE

Software Engineer

09-May-2022-Present)

BitsFlow Technologies, Noida, Uttar Pradesh

Project Experience:

- **Loan Recovery System Web Application** Developed a system for banks to track and recover loans using Vue.js, Django, and PostgreSQL. Created role-based dashboards and ensured smooth integration at client site, which improved recovery efficiency.
- **Loan Recovery Agent Support Mobile App** Created using Ionic-Vue for Android, featuring notifications, location tracking, and authority roles, allowing agents to manage loan recoveries on-site efficiently.
- **Business Rules Engine Web Application** Built a web-based platform for executing configurable business rules on datasets, leveraging Django and PostgreSQL, which increased processing speed by 10%. Developed a clean and reusable architecture using Redux.

Additional Responsibilities:

- Work Collaboratively: Led a team of 10 developers, ensuring timely project delivery with adherence to best practices.
- Frontend Development: Built user-friendly interfaces using Vue.js and React.js, utilizing tools like Webpack and Enzyme.
- Backend Integration: Developed REST APIs with NodeJS and Django, integrating MSSQL and PostgreSQL.
- Problem Solving: Optimized applications, reducing response times by 30%.
- Development Life Cycle: Contributed to analysis, design, development, and testing.
- Cloud & DevOps: Managed cloud infrastructure with Kubernetes and NPM.
- Documentation: Maintained detailed technical documentation.
- Innovation: Delivered innovative solutions, boosting user engagement and growth.

PROJECTS

- **LearnX:** Working on Test Platform. Features: Student and Teacher Role-Writes, Role based Dashboards, Test rewards, daily quizzes. Tech stack: Python, Django, Vue, Quasar, PostgreSQL
- **Carzone Project:** Developed an online platform using Django, HTML, CSS, JavaScript, and PostgreSQL for buying and selling used cars.

CERTIFICATIONS

- Vue.js Developer Certification - Maximilian Schwarzmüller Udemy
- Django for Beginners Certification - Ducat Noida
- Ionic Framework Certification - Maximilian Schwarzmüller Udemy

ACHIEVEMENTS

- Recognized as "Employee of the Month" at Bits Flow Technologies for leading successful project development.
- Presented a technical workshop on coding best practices, improving overall team proficiency and reducing code errors by 15%.

TECHNICAL SKILLS

- Front-End: JavaScript, Vue.js, React.js, Angular, HTML, CSS, Bootstrap, Vuetify, Vuex, Quasar, Ionic, VuePress, Nuxt3
- Back-End: Django, Django REST Framework
- Databases: MySQL, PostgreSQL
- APIs/Services: REST, JSON,
- Architecture: OOP, MVC

EDUCATION

MCA

IGNOU 2022 -Pursuing

B.Tech in Mechanical and Automation Engineering 2015-2019

GGSIU

High School

Gandhi Coed Sr. Sec. School 2013-2014

Matriculation

Govt. Boys Sr. Sec. School 2010-2011

LANGUAGES

- Hindi: Native
- English: Fluent

HOBBIES

- Playing out door games
- Learn new things
